

Fly on Me

Verse I:

If I ever lost
All my charm for you
Don't you know it wouldn't cost
Half as much as what is true
So don't leave me here
All alone...with these lonesome tears

Verse II:

I have loved you more
Than I ever loved
Don't you know I still adore
All you are as stars above
So don't walk away
With my heart...and my will to stay

Verse III:

I will vow to you
All my life to live
You can trust that I'll be true
This is all that I can give
So please take my vow
On my knees...no time best than now

Chorus:

You can sigh on me
You can vie with me
You can cry to me
You can even lie to me
But please, please don't you fly
Don't you fly on me
